67 Drivers Available Across The Entire Mediterranean

Contact us through WhatsApp
if you need immediate assistance!

...Serving your customers
across the entirety of
Europe,

covering all private jet airports
in Europe as well as all of the
ports and marinas in the
Mediterranean!

Company that can provide you
with not only chauffeur and supercar
services, but security detail too!

In the past you would have to
hire three separate
businesses to fulfil both needs but
now, you only need one!

Proud Member of XO Private

If you want your services to stand out from others, then you are in the right place.
Our service is specially designed to make your yacht charter business shine!

Highly qualified personnel :

All the XS drivers have years of police, military, or private security experience. Plus, they are first aid trained, childcare qualified and members of the International Security Driver Association (ISDA).

Book by phone, email or WhatsApp and offer our service directly to your clients as your own service. They can pay online, by bank transfer or by CRYPTO;

Whatever is more convenient for them. Or even let them pay directly to you while paying the final invoice of your yacht charter services.

A Supercar Fleet:

the company fleet of cars is not only standard vehicles but supercars as well.

Clear pricing:

The price you see is the ultimate bottom line. Fuel and unlimited mileage are included - we'll even offer a discount on our services for long-term use.

Personal Chauffeur - Bodyguard Driver

XS Travel Management's limo & chauffeured service provides three different services, all in one flexible package. Not only our driver will take your client to his destination in a comfort and style, but he will act as his bodyguard while following him on foot, ensuring that he is protected wherever he goes, and residential security guard / access control officer while being on a standby at his residence or yacht.

At XS Travel Management, we believe in opulent, high-end, luxurious travel and the exquisite benefits of living a corporate lifestyle. Whether your client prefers travelling via private jets, super yachts, or premium vehicles, we're on hand to ensure they enjoy the elite perks they've become accustomed to. **Our proud membership with XO Private is testimony of our commitment to providing extraordinary experiences for our seasoned travel connoisseurs.**

XS Travel Management provides clients with chauffeurs, supercar services, and professional security details. **Previously, customers needed to hire three separate services to meet their needs, but with us, you only need to purchase one bespoke package.**

XS Travel Management's Bespoke 3-in-1 Package includes:

- Chauffeured Service With Bodyguard Drivers.
- Close Protection.
- Access Control & Event Security Services.

We tailor our approach to **meet your unique needs.**

Why this **process works?**

1. It expedites tasks to save time, streamline processes, and keep protocols under one umbrella.
2. **Your privacy is paramount to us. Therefore, this approach minimizes the need to share information with numerous third parties, thus always keeping you safe.**

XS-International does not settle for mediocracy. Instead, our company goes above and beyond to guarantee your comfort and safety. Security executive drivers, more aptly described as bodyguards, facilitate your transportation services with years of police, military, or private security expertise. In addition, all our security personnel are International Security Driver Association (ISDA) members.

Our Drivers

Due to their wealth of experience, coupled with our specialized training, our chauffeurs are highly adaptable. They effortlessly shift roles, transforming into bodyguards when accompanying you on foot and transitioning into residential security guards while on standby at your residence. The scope of residential security isn't limited to villas or vacation homes; it also encompasses yacht services.

Personal Driver

We all recognize that effectively utilizing a driver is a good use of your resources. However, commissioning a qualified security driver is even wiser. Typically, a standard taxi driver can only help navigate familiar routes. Moreover, taxi drivers are less likely to be trained in social etiquette. We believe that feeling socially uncomfortable when travelling is the last thing your clients want to experience during their vacation. Therefore, our XS drivers are well-versed in social protocols, ensuring we treat your clients like royalty.

We must be aware that accidents, even if minor, may occur. As such, the service of a qualified first aider will prove invaluable, a service that your standard taxi driver may not provide. Furthermore, we're known throughout the industry for our unique use of security drivers. We're interested in more than just transporting your clients from one point to another. We care about your client's safety and comfort.

What Vehicles Are Available?

With our corporate membership, you will have the same range of vehicles in every part of Europe;

Our corporate membership program has excellent advantages for private jet and yacht charter businesses.

The corporate membership program works to benefit your management of client transportation as well as your brand. High-end clienteles are accustomed to a luxury lifestyle, and our services strive to meet those standards. The corporate membership program will allow you to offer the luxury transportation your clients expect so you can wow them with a strong first impression. When they tell others about their comfortable and safe transportation experience in association with your business, you will make even more positive impressions. After all, it is about who you know and how they speak of you to others in the world of business.

This membership also works to save you time and money. Our corporate membership program does this by providing a variety of services to encompass your every need, all within XS Travel Management.

Our services include

- Chauffeurs
- Bodyguards Drivers (Security Driver who will act as your client's bodyguard while following him on foot)
- Luxury Supercars

What is a Corporate Membership?

A corporate membership provides you with transportation services customized to your business. **These customizations include your company's branding on the fleet of vehicles assigned to your clients.**

We will apply your own branding or logo on our vehicles, to ensure your brand's identity and promote your business.

24/7/365

XS Travel Management is the only contact you will need to reach out anywhere in Europe!

We provide high-quality services 24 hours a day, 7 days a week, and 365 days a year.

Our Operations/Dispatch center keeps constant watch over all transport assignments, whether they are being scheduled or are currently in action.

Advanced Professionalism and Adaptability

Our drivers can help bring your clients to your luxury yacht on your behalf, ensuring we handle your business appropriately.

Our chauffeurs are well-cultivated, professional,

and eloquent, with extensive experience working in

the corporate world. We're the only limousine

company providing transport services

for captains and yacht charter

companies across the Mediterranean.

Prioritizing Safety & Assistance

As more and more executives and high net worth families travel on private aircraft, it is essential for the Drivers to understand the unique world and special challenges of providing secure transportation in and around corporate aircraft, how to work with a Fixed Base Operator (FBO) and Flight Crews, and other airport businesses that provides services to executive and chartered aircraft, same as to learn how to maneuver vehicles around the helicopter wherever necessary.

All our drivers are trained in multiple areas so they can properly respond to a variety of situations. In the case of a medical emergency, the staff we provide are equipped to administer first aid to any individual in need while managing the situation. Our staff is also trained in live-fire exercises that have prepared them for dealing with the event of fires starting on a ship while it is docked or out at sea.

Our Security Drivers are also educated on ISPS designated Superyacht Security duties through a certified program. This education ensures that they are more than capable of ensuring the security of a superyacht according to the highest standards of practice specific to vesicles at sea or docked in port.

Beyond the management of emergencies, our crew is also capable of assisting with event-related requirements like Event Access Control. If your yacht charter ever experiences a lack of staff during a large and important event, our members can step in to provide added assistance. XS Travel Management staff are trained to identify, respect, and act according to a variety of cultures and events.

Pamphlet Yacht Charter Information

At XS Travel Management, we understand that the clientele who travel on yachts are used to luxurious transportation methods, respectful treatment, safety and secrecy. Our company strives to meet the needs of every client we protect and every yacht we serve.

Our goal is to provide high-end transportation and security specific to our client's needs in the most discrete way possible.

To thefts and paparazzi, yachts are seen as a vulnerable prize. Criminals know that these vessels commonly carry high-profile individuals and expensive goods, making yachts a target for petty crime, illegal boardings, and pirates.

The Super Yacht Secure Transportation Services implemented by our sister company Xtreme Security are carried out with high safety standards allowing owners, families, guests and crew to conduct their navigation itinerary or stay in the ports in complete tranquillity both as regards their own personal safety, both regarding the safety of the Super Yacht and the goods transported therein.

Suppose we are talking about transport that lasts several days for sightseeing around a city or transportation all around an island. *In that case, the same team of drivers will be assigned only to you for the entire period of your holiday. They will be available immediately and stationed near your yacht at the dock in the marina.* In this way, the drivers act as active members of the ship's crew. Having a familiar team for protection and transportation is helpful to guests as well. We found that having familiar faces around helps with the psychological part of offering bespoke driving tailored solutions.

Private Yacht Event – Entry Control.

Regarding yachts, all our security drivers have completed their ISPS-designated Super Yacht Security certified program. This advanced education ensures our security drivers can provide first-class super yacht protection according to the highest standards of practice for vessels at sea or port.

Superior Event Access Control

*Our security drivers are not only available for security emergencies. They also join your crew and assist with event-related requirements like **Event Access Control**. Imagine you experience staff shortages during a significant and crucial function. Our trained drivers adapt accordingly to various cultures and situations, mitigating any problems should they arise.*

Furthermore, we understand that sometimes the yacht's captain might need more time to greet the dignitaries and accompany them to the yacht. However, this slight setback doesn't mean your clients will be left stranded at the airport; on the contrary, this is where we excel.

Airport Transfers

- A Seamless Protocol

At XS-Travel Management, we offer our customers comprehensive services, not just focusing on our yacht division, but our robust airport transfer service complements our yacht arm. This seamless coordination allows all vehicles and drivers to follow the yacht captain's instructions so everyone knows the details of any given itinerary. On the occasions when the captain and the yacht crew work late hours, we follow suit, so rest assured, we're available for you 24/7.

Our airport services don't begin and stop with the transportation to yachts. Instead, XS-Travel Management provides services to clients on private aircrafts through our bodyguard drivers. We have trained our drivers to understand this unique world and the challenges of providing secure transportation in and around corporate aviation. This training teaches our personnel how to work with a Fixed Base Operator (FBO), flight crews, and others on executive and chartered aircraft and how to provide Tarmac Access.

TARMAC ACCESS

Experience the ultimate bespoke airport transportation service to the special airports for a business flights and private air charter within entire Europe. You need door to door services? No problem, contact us at least 72 hours in advance and we would manage tarmac access and help you to book a private flight through our jet charter partners.

XS-Travel Management *- Our Practical Experience*

Our company has experience providing travel management services. For instance, organizing a luxurious trip to the French Riviera can be challenging. However, our in-depth travel management service conducts a robust risk and threat assessment, route reconnaissance, advanced location, and venue security. We even mediate with the venue managers on your behalf. We liken our top-notch offering to booking a premium table at a restaurant. You can expect a highly efficient first-class process.

Limo and Chauffeur Services **for Charter Companies, Captains, and Yacht** **Brokers** **Read Our Case Study**

We designed our superior yacht charter service for companies, captains, and brokers to make your business shine. With our help, we can take care of meeting and greeting your clients at the airport or the yachts. Additionally, if you prefer to have only one partner who will take care of all the road transport for every one of your guests anywhere in the Mediterranean, then we've got you covered!

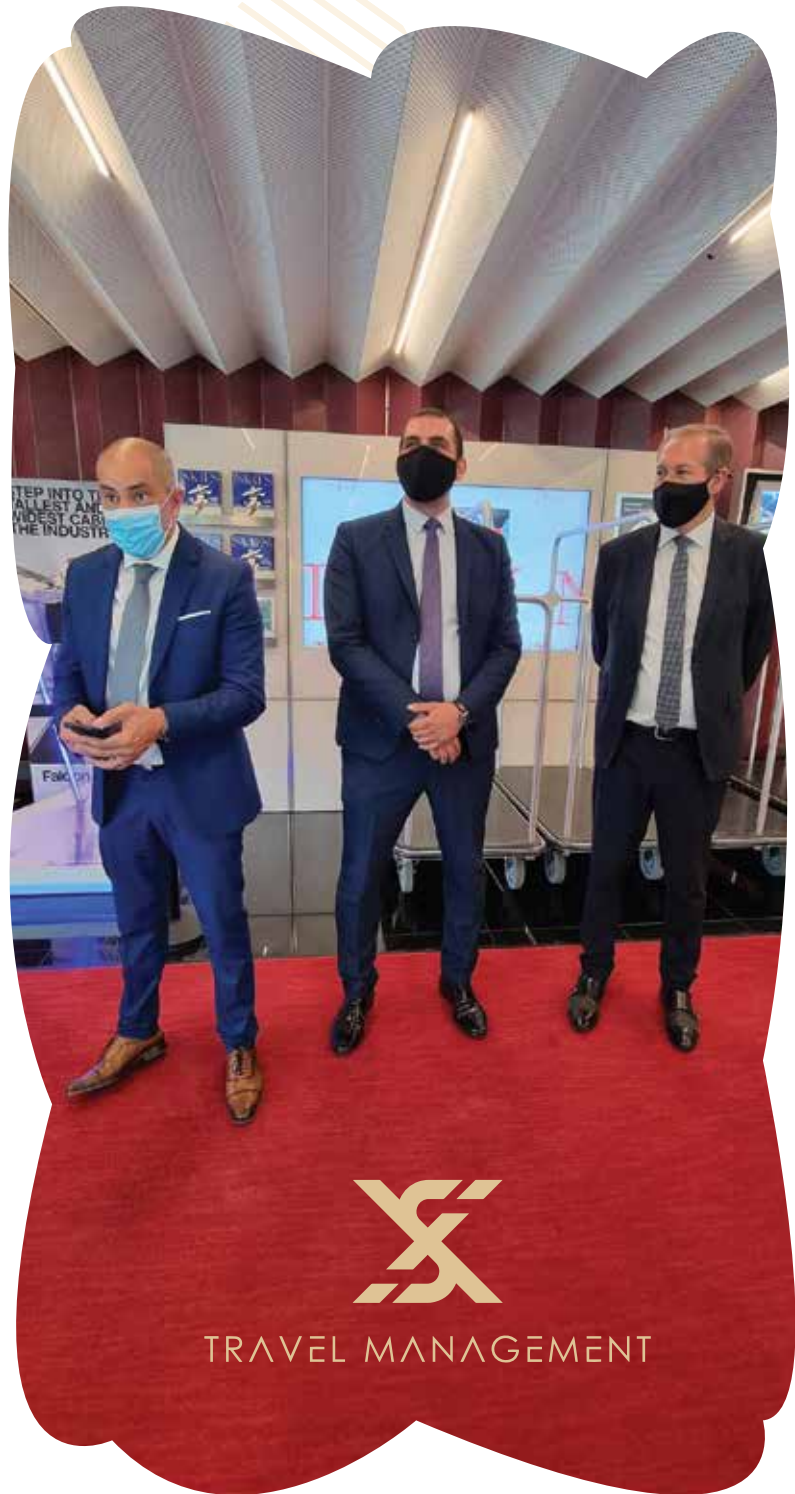

We only assign local drivers to drive your clients around the city because they know the local roads. Vital networking and our wide range of concierge services are also worth mentioning. We have developed these skills and connections through the protection and transportation services at VIP events, luxury hotels, VIP lounges, and clubs.

Experience in this industry has shown us that captains, and their officers, often don't have enough time between charters. As a result, they are always in a hurry to get their yacht ready within the shortest time while maintaining standards of safety and quality. For the same reason, captains and officers are sometimes unable to go to the airport to meet with their guests in person. Since this practice is considered to be usual, being unable to provide your guests with professional transportation would be unacceptable. Luckily, we have designed your ideal solution to this problem.

Imagine having a team of eloquent, well-trained professional drivers pick up your guests and transport them to your vessel on your behalf? You would save time, have an opportunity to feel better prepared for your next trip, and your guests will be met with the luxurious services that they deserve.

Our chauffeurs are not just drivers but a well-cultivated and professionally trained team with extensive experience in the corporate world. They are also experienced with families and children, making them suitable for a wide variety of clientele. In addition, our drivers have great social dynamics and soft skills, allowing them to solve problems, help celebrities, serve business executives, and interact with high net worth individuals.

Your drivers have to be extremely representable in order to leave a positive first impression on clients from the beginning.

TRAVEL MANAGEMENT

All the captain has to do is to be in contact with our dispatcher and a supervisor/team leader on the ground. From there, we will take care of the rest. The team leader will coordinate all vehicles and drivers based on the captain's instructions, thereby ensuring there is orderliness in every aspect of our service. We are aware that the captain and the crew sometimes work late hours, and we do the same, so you can be sure we will be at your disposal 24/7.

Premium Transportation

Here at XS Travel Management, our versatile chauffeurs will drive clients and their families anywhere they desire. The driver will also be on hand to assist the client's friends and guests with any given request. For example, transporting guests to the city centre, shopping, beaches, parties, and yacht at no extra expense.

Our drivers are also experienced with families and children, making them suitable for various clientele. Fancy popping to the grocery store, post office, or pharmacy? No problem. Our drivers are well-versed in working with corporate executives and families, too. Want the kids taken to the nearest adrenalin park or high-octane water event? We've got that covered! In essence, we pride ourselves on ensuring all your intricate needs are handled.

We also assist with the reservations at clubs and eateries, ensuring any booking consists of reserving the VIP section at the restaurant according to the safety standard procedures.

Thorough Risk and Threat Assessments

For added peace of mind, our pros conduct a thorough Risk and Threat Assessment and advance security (operational planning) before commencing any journey. Our detailed assessments involve visiting each location and venue beforehand, based on our client's itinerary.

French Riviera Events - Executive Protection

The French Riviera, also known as the Cote d'Azur on the Mediterranean Coast, is a spectacular place renowned for its glamorous beach resorts, such as Saint Tropez and Cannes. This tourist spot is perfect for relaxing and banishing months of pent-up stress. But that's not all. The French Riviera hosts many luxurious events. These events are primarily exclusive treats for your clients. However, with so much activity in the surrounding area, hiring XS International for Limo and Chauffeur services is the only way to guarantee complete, hassle-free, safe comfort.

French Riviera Crime Rate

Like any high-profile setting, there is a level of risk or crime. For example, there is a 57.14% chance you could lose personal property. However, opting for our security driver ensures important guests have a trained professional by their side protecting them from all manner of danger.

Limo and Chauffeur Services for The French Riviera

As the French Riviera has several events spread across cities like Cannes and Monaco City State, ensuring your client's safety is our top priority. XS International Limo and Chauffeur service guarantees a smooth, traffic-free journey due to our security detail conducting a route check in advance. We also provide high-quality Limo and Chauffeur services for the following events:

- Formula 1 & Grand Prix
- Monte-Carlo Rolex Masters
- Cannes Yachting Festival
- Monaco Yacht Show
- Cannes Film Festival

Corporate Events

We also understand that only a few events you attend are relaxed. Some of them are formal gatherings like the Cannes or Monaco Yacht Show, which brings together the leadership of corporate bodies. XS-International has provided several Yacht Show chauffeur services, and the company has a unique template that works.

While in ports, our trained professionals are stationed at entrances and monitor the perimeter to prevent the breach of any unauthorized personnel, especially at night. Your clients can always sleep soundly with our sister company, XS Travel Management, safeguarding their needs.

Our Detailed Travel Management Expertise includes the following:

- **Travel Management:** A premium concierge service, including comprehensive travel preparation.
- **Event Services:** Expect a deluxe drive to all your events.
- **Bodyguard Protocol:** A close protection officer by your side throughout your on-foot journey.
- **Yacht Protection at Port:** Feel safe with your own Yacht Access control officer.

Security and Transportation Services for the Family Office

As the operator of a family office, you cater to the sophisticated needs of ultra-high-net-worth individuals, necessitating close protection for your clients, their families, and their businesses. The significant wealth and assets your clients possess make them prime targets for criminal elements.

You may believe there's no need for such protection, or your clients may have expressed a desire to lead a normal, discreet life, eschewing the attention that accompanies bodyguard services. However, the reality is that your clients are not ordinary individuals, and it is your duty to ensure their safety at all costs.

The absence of a bodyguard signals a lack of commitment to your client's security and, by extension, to the integrity of your business. Without your clients, your business would not exist. If you choose to overlook the necessity of protection, you are essentially risking your clients' loyalty and your business's future.

This mindset only benefits your competitors, who would prefer to see you fail. Now is not the time to let your clients down. According to Forbes, between 2020 and 2021 alone, the number of ultra-high-net-worth individuals grew by 9.3%. Failing to safeguard your current clients, their families, and their businesses from potential risks could not only lead to the downfall of your family office but also prevent you from capitalizing on the opportunity to attract these new ultra-high-net-worth clients.

Security On Foot

With travel access across Europe, our staff can offer transportation on land whenever necessary. Should clients wish to explore a port on foot, our trained staff can accompany them and always ensure their safety.

Executive Protection

We provide a comprehensive service uncommon in the super yacht security sector by implementing our "Executive Protection" procedures. In addition, operatives have extensive experience working with celebrities and corporate executives. Rest assured; our team fully understands the need to guard your client's privacy.

Security At General Events

In the VIP world of corporate events, emergencies are sometimes inevitable. But the vital issue here is how we manage these setbacks. Hiring the right transportation company that provides limousines and security drivers is paramount for your client's well-being and safety. As a consumer, you want to know that your security detail can navigate last-minute changes and respond professionally to route and time adjustments.

Quite often, an Event Manager will be assigned to handle executive transportation. A seasoned Event Manager should be ready to anticipate changes, adapt quickly and have a plan B, and C prepared to execute. Dedicating one professional to the process additionally helps ensure that information and status modifications are recovered during driver shift variations, car replacements or any other potential disruption in service. And remember, our security detail is always available to transport your clients to events and pick them up from the airport as well.

Bodyguarding At the Clubs

Our professional bodyguard drivers will escort and protect clients in nightclubs. Whilst at the venue, our bodyguards will ensure their client remains discreet, comfortable, and shielded from other guests prying eyes. In addition, we position all our operatives within the immediate vicinity of the yacht or residence and are available to the client within minutes. Also, whether waiting inside the vehicle or discreetly at the designated area within the yacht, our operatives can sit and provide access control services while static. Rest assured your comfort and safety is our number one priority.

Our **Pro Bodyguarding Service**
Is Second to None

Residential Protection

XS-International doesn't settle for mediocrity. The company goes above and beyond to guarantee your comfort and safety. The transportation services are facilitated by security executive drivers, more aptly described as bodyguard drivers and these drivers have years of police, military, or private security experience. They are also members of the International Security Driver Association (ISDA).

Due to their wealth of experience, coupled with our specialized training, these chauffeurs are extremely adaptable.

They effortlessly shift roles, transforming into bodyguards when accompanying you on foot and transitioning into residential security guards while on standby at your residence. The scope of residential security isn't limited to hotels or vacation homes; it also encompasses yacht services.

Our residential protection division ensures your client's homes, yacht and businesses receive emphatic and quality protection, putting all your fears to bed. The residential protection will keep criminals guessing with our unique guard routine. Our agents will properly monitor people who access your client's home or yacht and office space.

**You name it,
XS-International covers it all.
